CRITICAL COMPONENTS AND SURFACE TREATMENTS FOR WHE

West Middlesex Surface Treatments Limited provides a comprehensive range of metal surface treatments, electroplating and non-destructive testing services to the professional mechanical engineering industry. Customers from aerospace, defence, oil industry equipment, electronics and similar sectors appreciate the West Middlesex team's dedication to quality, service, on-time delivery and total customer satisfaction.

repetitive, often intricate, components and is able to act quickly, and respond fully, to customer requests.

Surface Treatments

Surface treatment facilities at West Middlesex are amongst the most modern in Europe. They are supported by in-house chemical and non-destructive (dye penetrant and magnetic) test facilities that are

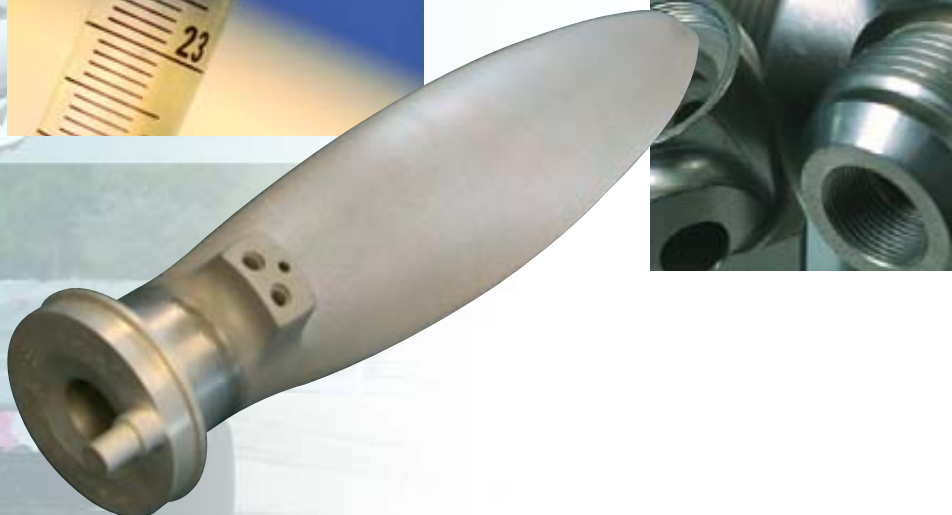

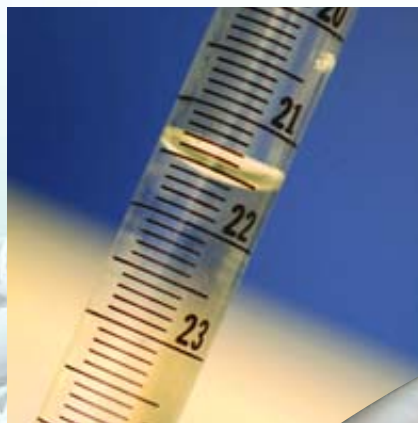

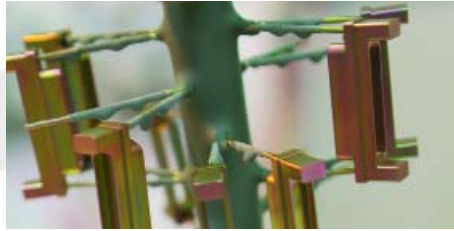

As a member of the Nasmyth Group of companies, West Middlesex is committed to continuous improvement in processes, quality, management and an overall level of responsiveness.

West Middlesex is a specialist in managing a wide range of finishes and quantities from small batches to

matched to the requirements of UK and International customers. These in-house capabilities help to ensure that every product is delivered "right first time" and on-time.

RE INTEGRITY IS A PRIORITY

Processes

- Zinc
 - (Clear, Colour & Black Passivates)
- Alocrom 1000 & 1200
- Chromic Acid Anodising
 - (Full Range of Colours)
- Sulphuric Acid Anodising
 - (Full Range of Colours)
- Cadmium Brightened & Low embrittlement
 - (Bright, Colour & Olive Drab Passivates)
- Copper
- Chrome
 - (Bright & Hard)
- Silver
- Gold
- Tin
 - (Bright & Dull)
- Bright Nickel
- Dull Sulphamate Nickel
- Electroless Nickel
- Stainless Steel Passivation
- Non-Destructive Testing
 - Dye Penetrant
 - Magnetic Flaw Detection
- Hydrogen De-embrittlement

Approvals List

Quality, Process and Environmental Approvals

- Quality
 - BS EN ISO 9001:2000
 - AS 9100
- Process and Environmental
 - IPPC
 - BS EN ISO 14001:2004

Key Customer Approvals

- Airbus UK Ltd.
- British Aerospace
- Westland Helicopters
- Eaton Aerospace
- Icore International
- McAlpine Helicopters

West Middlesex Surface Treatments Ltd is a member of the Nasmyth Group; a leader in the field of precision engineering for aerospace, defence, medical and other professional markets. The Group offers a full capability ranging from design and component manufacture, surface and metal treatments of all types, through to final product assembly. Within the Nasmyth Group, West Middlesex Surface Treatments Ltd offers a comprehensive range of coatings and surface

treatments for metal products. The range complements surface treatments available from other Nasmyth Group companies including GEB Surface Treatments, Bulwell Precision Engineers, IEC Engineering and Doughty Precision Engineering. In addition there are general and specialised treatments including metal plasma spray available from Metal Process Services Ltd.
